

Elektronik- und Software-Komponenten für automatische Auswuchtsysteme mit AE-Körperschall-Funktionen

angenehm einfache Bedienung
übersichtlich - präzise - preiswert

Module fur jeden Anspruch

...mit PROFIBUS fur komfortable, frei konfigurierbare Maschinenkommunikation

...mit digitaler Ein-/Ausgabe fur alle Systeme

Manuelles Auswuchten plus Unwuchtüberwachung bei Hochlauf und Betrieb

Komplette Integration in die spezifische Software-
Umgebung und Bedienstruktur
des Maschinenherstellers

Internationale Sprachmenus fur bedienerfreundliche Nutzung

The screenshot shows a software interface with several tabs: AE视图, AE手动, 循环参数, 输出参数, 图片设置, and 信息. The 循环参数 (Cycle Parameters) tab is active, displaying various settings:

- 周期时间: 20.000 s
- 放大器: 60.00 dB
- 静态偏差: 0.00 V
- 动态偏差: 0.00 V
- 平滑处理: 1.0 ms
- 图片区: 50 %
- 游标显示:
- 单显示:
- 自动X轴:
- 连续显示:
- 浏览模式: 最大

On the right, there are four columns labeled 限制1, 限制2, 限制3, and 限制4. Each column has a checkbox for '限制处于活动状态' and a '限制值' (Limit Value) field. Below these are radio buttons for '过冲', '下冲', and '上升', and '下降'. At the bottom, there are buttons for '复制', '粘贴', '保存', and '加载'.

The screenshot shows the 'Languages' tab in the software interface. It features a table with columns: Quick Access, ISO, EnglishName, NativeName, Language, and Additional Filename Extension. The table lists several languages with their respective settings:

	Quick Access	ISO	EnglishName	NativeName	Language	Additional Filename Extension
English	<input checked="" type="checkbox"/>	en	English	English	English	Backup
Espaol	<input checked="" type="checkbox"/>	es	Spanish	espaol	Espaol	Backup
